29 January, 2016

World Wetlands Day 2016 Wildlife in your wetland

Come to our free workshop to learn more about the wildlife in your wetland and about the opportunities available to you through the Land for Wildlife Program.

We'll also train you in the latest camera trapping techniques and lend you an infrared motion detection camera to survey your property for native and pest species as part of the National Parks Association of NSW's acclaimed citizen science project, 'Who's living on my Land?'

This workshop is a great opportunity to network with others and to hear about the conservation projects that are occurring in your area. The event also includes short talks on habitat connectivity and wetland protection and a cake to celebrate World Wetland Day!

**Enquiries or RSVP to Michael Andrews by Friday 29 January
at mandrews@conservationvolunteers.com.au or
02 4228 9246 or 0427 826 484**
